Dear Mr. Haddock:

Enclosed are update materials for the substation Pad Construction Amendment that received conditional approval from your office on April 18, 1991. The three conditions set forth in your conditional approval letter concerning: 1) the stock trail routing, 2) topsoil handling, and 3) finished grade elevations and containment berms have been addressed in the revised text and maps.

A revision checklist is included to help incorporate the revised items into the Substation Pad Construction Amendment.

Sincerely,
SOUTHERN UTAH FUEL COMPANY

Ken Payne,
Vice President and General Manager
