DIVISION OF  
OIL GAS & MINING

October 5, 1992

Mr. Darron R. Haddock  
Permit Supervisor  
Division of Oil, Gas and Mining  
355 West North Temple  
3 Triad Center, Suite 350  
Salt Lake City, Utah 84180-1203

Dear Mr. Haddock:

Enclosed are Southern Utah Fuel Company's responses to the Division's Permit Renewal Deficiency document, the Manti LaSal Forest letter and the Division of Water Rights letter.

Fourteen copies of revised M&RP text which incorporates these responses are also enclosed. The bond calculation submitted previously, and the previously approved change in diversion ditches for the waste rock site have also been included in this revision. Drainage ditch sizing has been revised to reflect the minimum required ditch sizes. To aid in your review all deletions are shown as strike outs and all additions are shown as shaded text in the revised M&RP text. Pages have been furnished to replace those pages that have been changed for all chapters, Appendix 2-2, Appendix 5-9, Appendix 7-2, Appendix 7-10, and Appendix 7-12. A new Appendix 7-15 is included and should be inserted at the back of Volume 10 behind Appendix 7-14.

Please approve these revisions to the M&RP and revise the permit approval document to reflect the correct bond amount and these changes.

Sincerely,  
Southern Utah Fuel Company

Ken Payne  
Vice President and General Manager
