Dear Mr. Payne:

Re: Inadequate Submittal, Experimental Practice, Southern Utah Fuel Company,
Convulsion Canyon Mine, ACT/041/002, Folder #2, Sevier County, Utah

On March 4, 1992, the Division received your submittal requesting approval for an experimental practice. At this time we cannot consider your application complete and therefore cannot approve it. As we discussed in our meeting of February 24, 1992, your application must be in amendment format ready for insertion into your mining and reclamation plan. A discussion of your plans should be in the narrative of your MRP and Mining Maps should be revised to reflect your proposal. The Dimick report and attached letter are not adequate for amending your plan. The report could be part of an appendix but you must specify where it is to be placed.

We are returning your submittal for your further attention. If you have any questions, please feel free to call me or Randy Harden.

Sincerely,
