July 28, 1993

Mr. Ken May, General Manager  
Southern Utah Fuel Company  
397 South 800 West  
Salina, Utah 84654

Dear Mr. May:

Re: Completion of Division Order #92A, Approval of Response to Renewal Deficiencies, Coastal States Energy Company, SUFCo Mine, ACT/041/002, Folder #3, Sevier County, Utah

The Division has completed a review of your submittal, dated July 1, 1993, intended to satisfy Division Order 92A with respect to remaining deficiencies in your permit renewal application. The submittal is considered complete and accurate and is hereby approved as part of your Mining and Reclamation Plan. The July 1st submittal, combined with your previous March 1993 and October 1992 submittals, has effectively responded to the outstanding deficiencies identified in the permit renewal. Division Order #92A is considered complete. One remaining item that may require additional follow-up is in regard to approximate original contour. The Division is still formulating a position on granting variances and you may be required to provide additional information in this regard in the future. However, your information is considered adequate at this time to complete the Division Order.

We need to move forward and want to establish that your new plan is now the approved plan and will be the one you will be held to. The October 1992, March 1993 and July 1993 responses will now be incorporated into your MRP and are approved as part of your plan. Any remaining deficiencies or problems in your plan will be dealt with as they are identified.

Thank you for your cooperation during the permitting process. Please call if you have any questions.

Sincerely,

A handwritten signature in black ink that reads "Daron R. Haddock".

Daron R. Haddock  
Permit Supervisor
