Dera Mr. Haddock:

This letter is in response to your letter dated August 11, 1994. You requested the Forest Service review the memo and verify whether of not the proposed changes to reclamation seed stipulations are acceptable to the Forest Service.

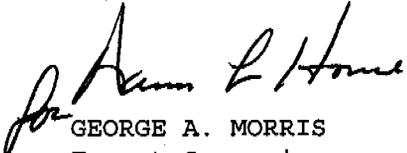

The proposed seed mixture was as follows:

Seed Name	Pounds per Acre
Western Wheatgrass	2
Basin Wild Rye	1
Intermediate Wheatgrass	2
"Paiute" Orchardgrass	2
Yellow Sweet Clover	1
"Rambler" Alfalfa	1
Blueleaf Aster	1/4
Lewis Flax	1/2
Mountain Big Sage	1/4
Bitterbrush	1

After careful review, the Forest Service consents to the proposed changes to the seed mixture and the adherence to the Utah State Seed Act. These changes amend Appendix A of the Decision Memo signed July 8, 1994. Implementation of these changes to Appendix A gives the State of Utah, Division of Oil, Gas, and Mining consent to amend the permit to Coastal States Energy Company, SUFCO approving the occupancy and use of Forest Service lands for coal exploration drilling. Changes to Appendix A may be implemented by Utah Division of Oil, Gas, and Mining on or after September 6, 1994.

Persons with questions related to this decision or project may contact David Hatfield at the Ferron Ranger District, PO Box 310, Ferron, UT 84523 or call (801) 384-2372 or 637-2817.

Sincerely,

  
GEORGE A. MORRIS  
Forest Supervisor
