Dear Ms. Coleman:

Enclosed are the August 1997, Discharge Monitoring Reports (DMR's) for the SUFCO Mine facility, permit number UT-0022918. Discharge point 001A had no outflow. Discharge from point 002A was the result of decanting the sediment pond. Both samples for 002A were taken during storm events. The outflows from point 002A and 003A had no exceedances for the month. The biomonitoring for the third quarter was completed on ceriodaphnia during August. This test passed.

Sincerely,  
CANYON FUEL COMPANY, LLC  
SUFCO Mine
