Re: Link Canyon Substation Proposal as Revised, Canyon Fuel Company, LLC, SUFCO Mine, ACT/041/002-98-1, Folder #2, Sevier County, Utah

Dear Ms. Kaiser and Mssr. Manus:

The Division has been reviewing for a number of months, a proposal by Canyon Fuel Company to install a substation in the Link Canyon Area of the SUFCO mine. In early November Canyon Fuel proposed to eliminate the portal breakout and increase the size of the substation. Canyon Fuel has again needed to change the proposal slightly. There will no longer be an increase in the size of the substation. This should allow the original EA done on this area to still be applicable. We are forwarding copies of the revised plans to you for your review. We anticipate completing our review of this latest proposal by December 18, 1998. Could you please provide your comments/concurrence on this revised action by that date.

If you have any questions on this plan change, please call me (801) 538-5325 or Pete Hess at (435) 637-2120 ext. 5622.

Sincerely,

A handwritten signature in black ink that reads "Daron R. Haddock". The signature is written in a cursive style with a long horizontal flourish extending to the right.

Daron R. Haddock  
Permit Supervisor
