Re: Determination of Administratively Complete Plan, Revision for Link Canyon Substation, Canyon Fuel Company, LLC, SUFCO Mine, ACT/041/002-SR98-1, Folder #2, Sevier County, Utah

Dear Mr. May:

The Division has completed an initial review of the Significant Revision to the SUFCO Mine, received on May 20, 1998. Your application is considered to be administratively complete which means it contains all information necessary to initiate processing and public review.

A technical review of your plan is now being initiated. Technical deficiencies will be forwarded to you as individual reviews are completed. The Division will also coordinate with other agencies and incorporate their comments into our review process. Issues raised will need to be resolved prior to permit issuance.

At this time, you should publish a Notice of Complete Application for the Link Canyon Substation Project as required by R645-300-121. A copy of the Affidavit of Publication should be sent to the Division as soon as it is available. You should also insure that a copy of the application is on file at the County Courthouse. The Division will complete a Technical Analysis (TA) which must find that your application is technically complete. We anticipate that additional information may be necessary to make your application complete and accurate and look forward to working with you throughout the permitting process. Please call if you have any questions.

Sincerely,

Daron R. Haddock  
Permit Supervisor
