Re: Changes to the Link Canyon Substation Proposal, Canyon Fuel Company, LLC, SUFCO Mine, ACT/041/002-98A, Folder #2, Sevier County, Utah

Dear Mr. May:

Recent conversations with Mike Davis of your office indicate that you will need to alter the Link Canyon substation and breakout proposal due to burn that has been encountered. We understand that the breakout will no longer be possible, but instead you plan to drill some horizontal boreholes to the substation pad. This change in the proposal will necessitate a number of changes in the plans that have been previously submitted. We therefore are returning them to you so that our files will not get mixed up between the new and the old information and so that your office can make the appropriate changes. Please insure that the deficiencies identified in our September 4, 1998 analysis are addressed in your next submittal.

If you have any questions please call.

Sincerely,

A handwritten signature in cursive script that reads "Daron R. Haddock".

Daron R. Haddock  
Permit Supervisor
