Re: Final Reclamation Seed Mix, Canyon Fuel Company, LLC, SUFCO Mine,
ACT/041/002-99A, File #2, Sevier County, Utah

Dear Mr. May:

The Division has received concurrence from the Forest Service regarding this amendment. A stamped approved incorporated copy is enclosed for insertion into your mining and reclamation plan. The supporting technical analysis is provided.

ANALYSIS:

RECLAMATION PLAN

REVEGETATION

Regulatory Reference: R645-301-341

Analysis:

The applicant has proposed to remove rubber rabbitbrush and yellow sweet clover from the final reclamation seed mix and to add fourwing saltbush. These changes are in response to requests from the Division and the Forest Service and are in compliance with the performance standards.

The Forest Service indicated the applicant needs to use the revegetation techniques specified in the Environmental Assessment for the Link Canyon Substation. These techniques do not conflict with those shown in the mining and reclamation plan.

Seed Mix
ACT/041/002-99A
February 25, 1999
Page 2

Findings:

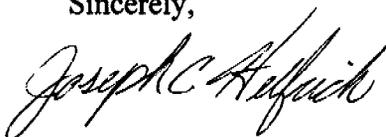

Information provided in the proposal is considered adequate to meet the requirements of this section of the regulations.

RECOMMENDATIONS:

The proposed amendment can be approved once the Division receives concurrence from the Forest Service.

If you have any questions, please call.

Sincerely,

Joseph C. Helfrich
Permit Supervisor
