Re: Water Monitoring Modification, Canyon Fuel Company, LLC, SUFCO Mine M&RP ACT/041/007

Dear Permit Supervisor:

The enclosed eight copies of pages 4-11, 7-41, and 7-46 in both redline/strikeout and clean text formats and Plate 7-3 are being submitted to modify the groundwater monitoring program in the M&RP. Attached are DOGM forms C-1 and C-2 and appropriate pages.

Pages 7-41, 7-46, and Plate 7-3 in Chapter 7, Volume 2, have been modified to abandon the groundwater monitoring wells 89-16-1 and 89-16-1W from the monitoring plan because these wells have been undermined with the longwall and the area has subsided. The water level measurements are not possible due to the collapse or blockage of the well casing. (See attached water monitoring level data sheet)

Page 4-11 in Part 4, Waste Rock Disposal Site, Volume 3, has been modified to abandon the first quarter groundwater monitoring in the winter months at the waste rock disposal site. Due to winter conditions these sites have not been accessible for monitoring for the last twelve years since 1989 during the first quarter of the year. Monitoring will continue to be done during the other three quarters on the same schedule as the rest of the mine water monitoring program.

If you have any questions or need additional information, please contact Mike Davis at (435) 286-4421.

Sincerely,
CANYON FUEL COMPANY, LLC
SUFCO Mine
