Dear Ms. Coleman:

Enclosed are the March 2001, Discharge Monitoring Reports (DMR's) for the SUFCO Mine facility, permit number UT-0022918. Discharge point 001A had no outflow. As previously reported the iron threshold was exceeded at point 002A on March 21, 2001 while decanting the sediment pond during snow melt. The outflow from point 003A had no exceedances for the month.

The acute biomonitoring for point 003A was successfully passed using ceriodaphnia during February.

Sincerely,
CANYON FUEL COMPANY, LLC
SUFCO Mine
