The Special Use permit and bond are in place. A copy of the Muddy Decision Memo/Special Use Permit was sent to SITLA on July 9 with cc's to UDOGM and BLM Price Field Office. The pre-construction meeting was held on Thursday. The only thing remaining is the FS road use permit. We anticipate that Canyon Fuel will sign and post the RUP bond on Monday (July 16). The company anticipates starting work on Wednesday. This is ok with us as long as the Road Use Permit and bond are in place.

Didn't you give them the special use permit?

What was is the effective date of the Muddy Tract special use permit?  
Thanks.

----- Message from on -----

Pacificorp has right of mineral entry to the Mill Fork tract under coal lease ML 48258 and has bonded with SITLA for drill hole reclamation in the amount of \$50,000, Surety Bond #KC6513. SITLA gives its approval to the project, subject to issuance of a surface use permit by the USFS.

>>> Pam Grubaugh-Littig 07/13/01 10:10AM >>>  
Thank you. and what about PacifiCorp?

>>> John Blake 07/13/01 10:08AM >>>  
I have the agreement but it is not yet fully executed. That may take a couple more days. Meanwhile, SITLA has no objection to Canyon Fuel Company commencing earthwork to construct the drill pads and roads.

>>> Pam Grubaugh-Littig 07/13/01 10:01AM >>>

Have you written your letter of agreement that you could fax to me?  
thanks.

Did you already get the bond, etc. for the PacifiCorp helicopter drilling?

>>> John Blake 07/13/01 09:58AM >>>

Ark Land has submitted a \$25,000 surety bond #SB0072374.
