John

Hi Mike,

I just looked at data for WRDS-B8 in the Database. There is a sample for WRDS-B8 on 3/29/2001. So the sample is in the system. It contains the following parameters:
F = Field, D = Dissolved

Water Temp F: 6.44
Ph F: 6.47
Sp. Cond F: 1920 umhos
depth: 39.2
Water Level 7902.2
D Boron: .2
D Ca: 143
D Fe: <.1
D Mg: 57
D Mn: <.1
D K: 4
D Se <.1
Hardness 592
Specific Cond Lab: 1933
TDS 1214
Total Alk: 304
Cl 199
D Na: 177
Bicarb: 371
Carbonate: <5
Sulfate: 405

It looks like I did not include this sample in my list of samples reported back to you. Thanks for bringing it up. This should take care of it.

If you need anything changed or added let me know.
Sincerely,
Ken Wyatt

DS-B8 that we ended up submitting the day we were testing the system and submitted it early by mistake. I don't know if you processed it then or if you still needed to process it with the four samples below. Please check.

Thanks, Mike

Subject: SUFCO 1st Quarter 2001 water data processed

Hi All,

Today I processed the 4 samples at the waste rock disposal site for the SUFCO mine. These were 1st quarter 2001 samples and included:

WRDS-B3 FLD 3/29/2001
WRDS-B5 NOA 3/29/2001
WRDS-B6 CTE 59-22482 3/29/2001
WRDS-B9 FLD 3/29/2001

This clears the 4 samples from the pipeline for the SUFCO mine 1st quarter 2001. If you have any questions please contact me.

Sincerely,
Ken Wyatt
