Re: Sampler & Fan Generator Building M&RP Permit Amendment, Canyon Fuel Company, LLC, SUFCO Mine  
C/041/002

Dear Permit Supervisor:

The enclosed eight copies of materials are being submitted to allow construction of a new coal sampler located below the existing loadout belt and a new fan generator building at the 4 East main fan. Due to the required longwall mining schedule under the East Fork Box Canyon the new sampler needs to be installed December 12-14 when the longwall tripper drive is being removed. Forms C1 and C2 are included showing changes needed in Chapter 5 and the associated Appendix.

Text pages 5-44 to 5-46 are being submitted to add the new sampler and fan generator buildings to Table 5-4 Description of Existing Structures list in the MRP. The old sampler building has been renamed the transfer building. Plates 5-2A and 5-2B have been updated to show the new location of the sampler and plate 5-2C has been updated to show the new location of the fan generator building.

The sampler and fan generator building reclamation costs have been calculated and are attached in the new bond calculation sheets to be included at the back of Appendix 5-9, Vol. 6. The small amount of \$6,027 is covered in the contingency amount of \$247,751 in our present reclamation bond and would not require recalculation of the entire bond at this time.

Sincerely,  
CANYON FUEL COMPANY, LLC  
SUFCO Mine
