Dear Ms. Coleman:

Enclosed are the December 2003, Discharge Monitoring Reports (DMR's) for the SUFCO Mine facility, permit number UT-0022918. Discharge points 001A and 002A had no outflow during the month. The daily maximum limit for iron of 1.0 mg/l was exceeded from point 003A because the sample taken on December 17, 2003 had an iron value of 1.26 mg/l. The cause of this high iron reading is being investigated. The results of the December 17, 2003 sample were received on February 2, 2004. With Mountain States Analytical going out of business the last sample report was held up until all invoices had cleared their office.

The results of the January 7, 2004 sample had an iron value of 0.243 mg/l.

Sincerely,
 CANYON FUEL COMPANY, LLC
 SUFCO Mine

L. Craig Hilton
 Technical Services Manager
