Re: Stream Channel Application No. 04-94-02SA for repair of subsidence cracks in the East Fork of Box Canyon in Sevier County.

Dear Mr. May:

In order to further process the above-mentioned application we are requesting that the following information be provided:

Canyon Fuel must propose access routes and methods which are subject to approval by the Division of Oil, Gas, and Mining and the Surface Management Agency. Use of National Forest System roads apparently is authorized, however, access from these roads to the locations where crack sealing will take place must be addressed.

If you have any questions or comments, please call me at 801-538-7377.

Sincerely,

Daren Rasmussen
Stream Alteration Specialist
