Subject: East Fork Pictures

Pam,

Here is the electronic copy of the pictures showing part of the East Fork of Box Canyon before and after remediation. The pictures speak for themselves.

Jim

(See attached file: Coal Mining Subsidence Impacts to Perennial Stream.doc)

**Coal Mining Subsidence Impacts to Perennial Stream
East Fork of Box Canyon, Sevier County, Utah**

Image showing a portion of the East Fork of Box Canyon taken by UEC on September 24, 2004 and submitted with their motion for a stay pending appeal as Attachment F. The picture purports to show that there has been significant damage to the stream that has not yet been repaired.

Image showing the same stretch of the stream on October 7, 2004, showing that the stream flow has been restored.
