Subject: Results of the 2004 Midterm Review, Canyon Fuel Company, LLC,
SUFCO Mine, C/041/0002, Task ID #2363, Outgoing File

Dear Mr. May:

The Division has completed the Midterm review of the SUFCO Mine as required by R645-303-211 (Task ID #2325). We have evaluated the information submitted by Canyon Fuel Company LLC in response to permit deficiencies identified during the review process. Areas of concern, which were within the scope of the review elements identified to you in a letter dated November 18, 2004, have been adequately addressed. The submitted response contained both red line/strikeout and clean copy versions, which can be stamped for incorporation and forwarded to the respective government agencies.

Your technical response to the permit deficiencies is approved effective November 16, 2005. A stamped incorporated copy, suitable for insertion into your approved copy of the mining and reclamation plan, is enclosed. An updated copy of the Technical Analysis will be sent as part of the SITLA Muddy Tract review (Task ID#2354). This concludes the Midterm Review for the SUFCO Mine.

If you have any questions regarding this midterm permit review process, please feel free to call me at (801) 538-5286, or Peter Hess at (435) 613-1146, ext. 203.

Sincerely,

D. Wayne Hedberg
Permit Supervisor
