Mike,

I have uploaded the additional information for SUFCO from the pipeline into the permanent database. A report is attached.

It looks like you have now included all required samples and parameters for the third quarter of 2005.

Please let me know if you have any questions.

Thank you,

Dana Dean, P.E.

Dana,

I entered the field data for sites 041 and 042 with a note explaining that the lab water samples were misplaced or lost in the second quarter.

I also added the missing flow samples for July and September for Pines 407 and Pines 408 for 3rd quarter.

All these samples are ready to upload to the master file database.

Let me know if you have any questions.

Thanks,  
Mike

I do recall, now \* other than notifying me and the hydro (which you have already done) if you will put a note in for the sample explaining what happened, that will be helpful.

Thanks,  
Dana

Dana:

As you may recall, Sufco obtained water samples for sites 041 and 042 in the second quarter of this year. However, the lab managed to lose the samples, thus we did not have the lab data for these two sites. Mike did enter the field data but we need to determine how to address the issue of no lab data and the EDI. Do you have any suggestions?

Thanks,  
Chris
