Subject: Meeting on North Water Spring

Wayne:

Canyon Fuel Company, LLC Sufco Mine would like to request a meeting with the appropriate representatives from DOGM, Manti LaSal National Forest, and the BLM to discuss the potential long-term solutions that can be applied to issues at the North Water and Joes Mill Pond springs. The purpose of the meeting would be to discuss the various options the mine has been working on as solutions and to give the agencies an opportunity to voice their suggestions and concerns regarding the options before a formal long-term solutions plan is submitted by Sufco. The meeting would be somewhat informal and an exchange of ideas would be appreciated. Sufco believes having this meeting would aid in streamlining the entire process since the regulatory concerns for each solution could be discussed as a group at one time. We believe it would be helpful to discuss the issue in an office setting, thus allowing for meaningful discussions to take place and all involved will have the opportunity to participate. Sufco is willing to have the meeting at Sufco or, if it is more convenient for the group, the Manti LaSal Ferron Field Office, Manti LaSal Price Office, or DOGM offices.

Sufco anticipates that Ken May, John Byars, Mike Davis, and Chris Hansen will participate in the meeting. This group is available to meet on the 14th, 15th, or 22nd of June. Please let me know as soon as possible if the Division supports the meeting, and if representatives of the above mentioned agencies are able to attend. As has been discussed in the past, we believe it is appropriate for us to work through DOGM in this matter.

Thanks for you help,

Mike Davis
