Subject: RE: August Partial Inspection @ SUFCO

Pete,

Link Canyon and North Water Spring 105 both work for me.

Piezometer drilling was completed at the 310 & 311 springs and two holes were drilled at the 105 spring (one above & one below fence area) before the drillers had to pull out at the end of week Aug 1-5. The driller had another commitment during the week of Aug 7-11. They planned on moving back down here on Aug 14. I haven't had time to go up and check on them this week and haven't heard anything from Chris or Erik.

Erik and Chris had the transducers on Friday Aug 11 and were going to go up and install them.

Mike

See you on the 29th...lets meet at the Emery rest area @ 9 AM and we'll inspect Link Canyon. What is the status of the piezometer installations in the spring 105 area ? Maybe we could visit that as well ?

Pete,

I plan to be on vacation all next week (Aug 21-25). Would the 28th or 29th work for you.

Thanks,
Mike
