**Subject:** RE: Sufco 2006 1st Quarter Water Monitoring Data

Mike,

I have now uploaded the 3-8-06 sample for UT0022918-003A, and changed the requirements for 1-8-1 to reflect 2nd, 3rd, and 4th quarter monitoring.

I have also added the Muddy Tract sites to the database, and a new site list is attached.

Thank you for clarifying things.

Please let me know if you have any further questions.

Thanks,

Dana, Steve,

One of the samples didn't get uploaded from the pipeline into the database or on the report. Sample UT0022918-003A, dated 3-8-06, CTE-59-28572.

The new sample site 1-8-1 parameters need to be changed in the EDI to not require a sample for the 1st quarter water monitoring like the rest of the Sufco wells, springs & streams. Sufco MRP requires "Monitoring sites are sampled three times per year" Page 7-48, Chapter 7 of MRP. This modification was approved in the MRP due to the sampling sites not being accessible during the winter months of the year. Maybe a text note referencing this page should be included at the bottom of Table 7-3, Page 7-44 to help clarify the requirements.

Also Sufco will need the other new sample sites for the SITLA Muddy Tract added into the EDI database for the 2nd quarter water monitoring data to be entered. Sites M-STR4, M-SP01, M-SP02, M-SP08, M-SP18, M-SP39, & M-SP53.

Please let me know if you need additional information or have any questions.

Thanks,  
Mike

Mike,

I have uploaded all of the information for SUFCO from the pipeline into the database. A report is attached.

As a reminder, according to parameters set by the assigned hydrologist, you are still missing a sample for site 1-8-1.

Please let me know if you have any questions.

Thank you,

Dear Pam:

Sufco has successfully uploaded the Sufco mine 2006 1st quarter water monitoring data to the Division EDI.

If you have any questions, please send me an email or call me at (435) 286-4421.

Thanks,

Mike
