Subject: East Fork of Box Canyon Video Taping, Canyon Fuel Company, LLC, SUFCO Mine, Task ID #2703, C/041/0002, Outgoing File

Dear Mr. May:

The Division recently received a letter from Canyon Fuel Company, LLC (CFC) in response to our November 2, 2006 meeting with Chris Hansen regarding the post-mining video taping of the East Fork of Box Canyon (EFB). The letter sufficiently describes the conflicting timing for the video taping as described in the SUFCO Mining and Reclamation Plan (M&RP). The Division concurs that the appropriate timing for the post-mining video is three years after the undermining of 3LPE and 4LPE.

Based on the current condition of the EFB stream channel and ongoing mitigation, we also concur that the best time for the post-mining video taping would be in September 2008; corresponding with the potentially last vegetation study. The Division looks forward to receiving an amendment to the SUFCO M&RP from CFC to reflect these changes.

Please provide this amendment to the Division within 45 days of your receipt of this letter. If you have any questions or concerns regarding this letter, please call me, at (801) 538-5286, or Steve Fluke at (801) 538-5259.

Sincerely,

  
D. Wayne Hedberg  
Permit Supervisor
