RE: Canyon Fuel Company, LLC. - "SUFCO" Mine - Application for a Permit Revision, New Ambulance Building, Task ID No. 2806

Dear Sir or Madam:

This is in response to the Utah Division of Oil, Gas & Mining's (UT-DOGM) May 17, 2007, request for a decision, under 30 CFR 944.30, whether the above subject permit revision constitutes a mining plan modification.

Mining plan approvals by the Secretary of the Interior are required under the Mineral Leasing Act of 1920, 30 U.S.C. 181, *et seq.* before coal mining can occur on Federal lands. This letter serves to document OSM's determination whether or not a mining plan approval from the Secretary is required for the above permitting action.

OSM's review of the Application for a Permit Revision, New Ambulance Building, has determined that it proposes to construct a new ambulance building and updates the text and Plates of the approved Permit Application Package (PAP) for the SUFCO mine, Utah State permit C/041/0002 to address the new building's location and reclamation bond cost.

Based on a review of the activities associated with the permit revision, OSM has determined that the proposal does not meet the requirements of 30 CFR 746.18(d). Therefore, the proposed permit revision does not constitute a mining plan action requiring Secretarial approval.

OSM's decision was based solely upon the Federal regulations under 30 CFR PART 746 and not the technical aspects of the revision application itself. Consequently, OSM's decision does not relieve UT-DOGM from coordinating the review and approval of the Application for a Permit Revision, New Ambulance Building, with other Federal agencies for compliance with other Federal regulations.

OSM also electronically transmitted the May 17, 2007, request to the Bureau of Land Management and the U.S. Forest Service for their review and comment.

JUN 07 2007

DIV. OF OIL, GAS & MINING

TAKE PRIDE[®]
IN AMERICA 

In an electronic submittal dated May 30, 2007, the U.S. Forest Service stated in its opinion the permit revision did not constitute a mining plan action requiring Secretarial approval.

In an electronic submittal dated May 29, 2007, the Bureau of Land Management stated in its opinion the permit revision did not constitute a mining plan action requiring Secretarial approval.

Please notify the applicant of our decision on this matter.

Should you have any questions regarding this letter or approval, please contact Carl R. Johnston, Utah Federal Lands coordinator, at (303) 844-1400, extension 1500.

Sincerely,

Ranvir Singh
Manager, Northwest Branch
