RE: Canyon Fuel Company, LLC - "SUF" Mine - Application for a Permit Revision,
Subsidence Crack Monitoring, Task No. 3272

Dear Sir or Madam:

This is in response to the Utah Division of Oil, Gas & Mining's (UT-DOG) May 6, 2009, request for a decision, under 30 CFR 944.30, whether the above subject permit revision constitutes a mining plan modification.

Mining plan approvals by the Secretary of the Interior are required under the Mineral Leasing Act of 1920, 30 U.S.C. 181, *et seq.* before coal mining can occur on Federal lands. This letter serves to document OSM's determination whether or not a mining plan approval from the Secretary is required for the above permitting action.

OSM's review of the Application for a Permit Revision, Subsidence Crack Monitoring, has determined that it proposes to revise the text of the approved Permit Application Package (PAP) for the Dugout Canyon mine, Utah State permit C/007/0039 to indicate that 2008, will be the last year that subsidence cracks in the West Fork of Box canyon will be monitored for movement.

Based on a review of the activities associated with the permit revision, OSM has determined that the proposal does not meet the requirements of 30 CFR 746.18(d). Therefore, the proposed permit revision does not constitute a mining plan action requiring Secretarial approval.

OSM's decision was based solely upon the Federal regulations under 30 CFR PART 746 and not the technical aspects of the revision application itself. Consequently, OSM's decision does not relieve UT-DOG from coordinating the review and approval of the Application for a Permit Revision, Subsidence Crack Monitoring, with other Federal agencies for compliance with other Federal regulations.

OSM also electronically transmitted the May 6, 2009, request to the Bureau of Land Management and the USDA Forest Service for their review and comment.

In an electronic submittal dated May 13, 2009, the USDA Forest Service stated its opinion the proposed permit revision would not constitute a mining plan action requiring Secretarial approval.

The Bureau of Land Management did not provide any comments in the thirty day time frame established by the Federal regulations under 30 CFR 944.30, Article VI. D.

Please notify the applicant of our decision on this matter.

Should you have any questions regarding this letter or approval, please contact Carl R. Johnston, Utah Federal Lands coordinator, at (303) 293-5038.

Sincerely,

A handwritten signature in black ink that reads "Robert Postle (Acting)". The signature is written in a cursive style.
