Subject: Re: IRs Due Today

I have reviewed the application for the Sufco Mine design and sequence change. There appears to be missing information in there proposal. It is unclear if the lease area proposed for mining has been approved by the BLM. It is also unclear if the permit boundary area is defined. If the permit area is expressed on the plate showing the Quitchupah Tract then baseline information should be submitted for vegetation, wildlife and archeology.

Hello Dave,

SUFCO, Mining Design & Sequence Update, Task ID #3369 & SUFCO, New Sedimentation Overflow Pond, Task ID #3370...IRs are due today...Thanks!

Just email me when they are done....

Thanks again!
