Hi Ken and Mike,

It looks like the disturbed acreage for SUFCO Mine has increased from 46.306 to 48.432 with the approval of the New Sedimentation Pond, Task ID #3370.

Please complete the following forms in order to update the Reclamation Agreement with the correct acreage information:

- Exhibit "D" - Stipulation to Revise the Reclamation Agreement - simply indicating that there is a change in the disturbed area;
- Exhibit "A" - Bonded Area description; and
- Affidavits of Qualification for the Surety Company and the Permittee.

If you have any questions - please don't hesitate to contact me.

Thank you,
Angela Nance
