Dale,

I received your voice message. Thanks for letting me know you've spoken with Chris Hansen and that he will be forwarding that piezometer data to both our agencies. I have been able to determine that we last had piezometer data in 2007, but have not been able to find any additional piezometer data since then.

The month of May is a little tough for me right now, as we are in the midst of dealing with the Coal Hollow permit challenge and I have a planned trip to Boston the second week of May. Later in the month would suit my schedule better for a trip to North Water Canyon.

Thanks again for the update!
Regards,

April
