Tom,

You had asked about the amendment that Sufco submitted regarding the North Water Springs Mitigation. We had sent a copy to Dale, but I have attached a copy for your review. We actually denied this application on July 26, 2010 and have asked them to respond to our list of deficiencies. We expect them to supply a revised version of this amendment in the near future. We will forward you a copy when it comes in. Anyway, I hope this helps paint a better picture of where we are on this. Thanks for your help

Daron
