Inspection Type: PARTIAL

1. Permits, Change, Transfer, Renewal, Sale

Amenements currently on file include The South Fork of Quitchupah, WG3950, mine personel are working on a response to the Divisions' deficiency letter dated 12/21/2011, the permit renewal WG 4002 and Warehouse Expansion WG 4006 are under review at the Salt Lake office. The Greens Hollow LBA is pending the outcome of the lease stipulations that are being negotiated between the BLM and Forest Service. There are three perennial streams that the company proposes to mine under. If the Forest Service stipulates that they can not be mined under this would preclude mining in 8 of the thirteen longwall panels proposed to be mined.

22. Other

The mine is beginning to produce coal from the 4th West portal area. MSHA has lifted the "K" order in the old workings area based on acceptable levels of carbon monoxide.
