Hello Jason,

Nice to speak with you today. As a follow up to our earlier conversation, I had an opportunity to discuss this issue with the permitting folks at SUFCO. SUFCO is fully intending to permit this new load out facility through DOGM once the Special Use Permit Expansion application is approved through the Fishlake Forest.

I was concerned that the mine would not take the action of permitting the load out facility through DOGM, but I feel that they have eased my concerns.
