Gentlemen,

We are requesting that the resubmittal date for the ID#'s listed below be extended to August 19, 2013. The deficiencies listed within the tasks require us to obtain information from outside sources including federal agencies, consultants and laboratories. Requesting the information from these sources has proved to be time consuming and several of the sources have not responded as of this date.

We will resubmit the amendment as they are completed and anticipate having all the information we need to make the resubmittals by August 19th.

Amendments to Permit

3R2S Panel Block B, Task ID #4367

Expansions of Lift #5, Task ID #4335

Waste Rock Disposal Site Subsoil Pile As-Built, Task ID #4368

Sediment Overflow Pond As-Built Drawings, Task ID #4366

Thank you for considering this request.
