Hi Vicky,

Sorry I didn't get back to you sooner. I spoke with Daron, and he agreed that formal permitting is not required for the type of geo-technical work you discussed with me the other day.

A letter describing the process and perhaps a down and dirty map with locations would suffice. Please provide some discussion as to how the holes will be reclaimed/filled.

If you want to discuss it further before you submit the letter, give me a call or you could even e-mail the draft to me and I can take a look before you send it. It's up to you.

Regards,
Steve
