Analysis:

On March 10, 2015, the Division received an amendment to replace Plate 5-7 with an updated map to outline the projected mining for the next five years. Specifically, this updates the timing of mining the 1 Right and 2 Right panels of 5 west. These panels are primarily within the boundaries of existing leases. The Permittee calls out directly on Plate 5-7, that "Any projected mining shown beyond existing lease boundary lines is subject to future lease modifications and approvals." The amendment is sufficient to meet the requirements of R645-301-521, and is recommended for approval.
