Access to the South Fork of Quitchupah was still not possible during the past two weeks. Attempts were made on Feb, 8, 9, 12, 16 and 18th. Although, we have had some warmer days, it has just caused the snow to melt which makes the roads and trails impassible due to mud. There was a blizzard at the mine site late on the afternoon of February 18th. A drawing showing the location of mining has been attached. Please contact us with questions at this e-mail address or at [\(435\)286-4481](tel:4352864481). Happy Monday, Vicky
