Find attached a copy of a drawing showing the location of mining as of May 1, 2016. Access to the South Fork of Quitchupah was attempted on April 19, 22, 26, and 29<sup>th</sup>. Of the three ponds inventoried weekly, two were approximately ½ full the other was empty. Flow at the culvert where it crosses the road was estimated at 45 – 55 gpm during the four visits. Flow at the springs above road and in the canyon were similar to what they were in the late Fall of 2015. On April 26 and 29, the runoff water was turbid due to a heavy snow fall. If you have questions or need additional information, please contact us at the e-mail address or by telephone at [\(435\)286-4481](tel:4352864481). Regards, Vicky

Find attached a copy of a drawing showing the location of mining as of April 3, 2016. Access to the South Fork of Quitchupah was still blocked during the past two weeks. Attempts were made by four wheeler via Accord Lake, BroadHollow and Link Canyon on March 22, 23, 28 and 30<sup>th</sup>. The conditions included snow drifts, mud and a blizzard. If you have questions or need additional information, please contact us at the e-mail address or by telephone at [\(435\)286-4481](tel:4352864481). Regards, Vicky
