Suzanne,

Will you please file this as Forest Service consent to discontinue monitoring areas north of the road. This applies to a commitment in Appendix 3-14 and task 5282.

To: "lreinhart@utah.gov" <lreinhart@utah.gov>

Lisa, I believe we discussed this in an early conversation when I forwarded this e-mail to you and Amanda. I took Rob Hamilton to the monitoring location for vegetation and water on the South Fork of the Quitchupah on August 16th. He in turn discussed the monitoring with Jason Kling the Ranger. Jason agreed that the monitoring above the road was no longer necessary. We could have a conference call with Rob as soon as one can be set up to discuss. Regards, Vicky

Subject: Response

Hi Vicky – I talked with Jason Kling about the matters we discussed on Tuesday. Here are his responses:

- He agrees that monitoring above the road is no longer needed.
- He agrees that the planned repair work of the sink hole can proceed without further ado from the FS.

I have been called on a fire assignment so will not be around for up to two weeks. I should have my cell phone and email access though so you could contact me if needed.
