Emery Town is a Equal opportunity Employer and provider.

DIV. OF OIL, GAS & MINING

65 North Center Street
P.O Box 108
Emery, UT 84522

Dear, Sir

Emery Town is concerned with SUFCO and their proposed mining plan of the Green Tract. The concerns we have are the stream flow and the quality of the water. The Muddy Creek is our primary source of culinary water.

- Will they be discharging any water into the Muddy Creek by pumps or natural flow?
- If they dry up any springs will this water be replaced?
- What will happen to the water when the Greens Tract is mined out?

We would appreciate any information on these concerns.

Mayor, Gary Petty
