2. Signs and Markers

The identification signs posted at entrances into the permit area were viewed. These various signs contained the name, address, phone number and permit number associated with the operator of the SUFCO mine. The signs were all found to be in compliance with the coal rules.

4.a Hydrologic Balance: Diversions

Diversions at the main mine site and the satellite waste rock site were open and functional according to design.

7. Coal Mine Waste, Refuse Piles, Impoundments

Waste rock site was not active during the inspection and had a light snow covering that blanketed the entire area. The pile appears to have proper placement and to be stable. No visible hazards were observed during the waste rock site inspection.

8. Noncoal Waste

The mine site and the waste rock site were free of noncoal waste items outside of an approved storage containment.
