Good morning,

Per our phone conversation, I'll extend the deadline for the Sufco Midterm Response to February 6th, 2019. As always, feel free to reach out to us with any questions you have. If you feel a sit down meeting is in order, please let us know and we'll help facilitate that. We're happy to work with you to complete this process.

It should be noted that February 6th is 76 days beyond the completion of our midterm review. After speaking with you, I have a better understanding of your constraints. However; it's imperative that we complete this process and in particular, ensure that the bond has been updated according to the rules. An additional extension beyond February 6th is not a good option.

Regards,
Steve

Amanda and Steve, due to current in-house work load we are requesting an extension for submittal of deficiencies associated with the midterm review to February 28, 2020. Please confirm this extension will be agreeable with the Division. Regards, Vicky
