

April 22, 1982

Inspection Memo
to Coal File:

RE: Utah Coal and Energy Company
Blackhawk Mine
ACT/043/001
Summit County, Utah

The above mentioned operation was inspected on April 9, 1982, by Joe Helfrich, Ken Wyatt and Dave Lof from the Division. Division members were accompanied by David Moore, Maintenance Foreman at the Blackhawk operation. To date there has no activity at the minesite with the exception of additional slumping around the upper portal area. Mr. Moore indicated that Pat Cafarelli had planned to do some face-up work around both the upper and lower portals. Mr. Moore also indicated the possibility of a merger with Rich Energy International an alledged Canadian firm with the possibility of being operational by late summer, 1982.
