Folder Nos. (2), 6 and 9
Summit County, Utah

Dear Mr. Maki:

A summary of the water quality results from the samples collected on March 22, 1983 are enclosed with this letter. These data should be useful as you develop a water monitoring program for the Boyer Mine site.

Also enclosed is a copy of a citizen's complaint received by the Division regarding the proposed Boyer Mine. This complaint, along with the previous objection to the mine from the Boyer family, should be taken into consideration by you during the preparation of your mining and reclamation plan.

Please contact me if you have any questions regarding this correspondence.

Sincerely,
