Re: Determination of Completeness
Summit Coal Company
Boyer Mine
PRO/043/008
Summit County, Utah

Dear Mr. Braxton:

Enclosed are seven copies of the Summit Coal Company response to the November 12, 1986, Determination of Completeness and Technical Deficiencies. Also enclosed is a checklist to help facilitate the review. All items of concern have been addressed with this submittal, except the hydrology questions, which will be submitted after the SOAP information is available. All pages and maps are numbered, and should either replace or be added to the plan at appropriate locations.

If you have any questions, or need any further information, please contact either me or Jack Blonquist at Summit Coal Company.

Sincerely yours,

Dan W. Guy, President
Blackhawk Engineering Company
