Re: Initial Completeness Review
Summit Coal Company
Boyer Mine
PRO/043/008
Summit County, Utah

Dear Mr. Braxton:

Enclosed are 7 copies of the Summit Coal Co. response to the Initial Completeness Review. Also enclosed is a checklist to help facilitate the review. All items of concern have been addressed with this submittal, except the hydrology questions, which will be submitted after the SOAP information is available. All pages and maps are numbered, and should either replace or be added to the plan at appropriate locations. With the exception of the sheets for Chapter 6, complete replacement chapters have been submitted to simplify the plan update.

If you have any questions, or need any further information, please contact either me or Jack Blonquist at Summit Coal Company.

Respectfully,

Dan W. Guy, President
Blackhawk Engineering Co.
