Dear Mr. Blonquist:

Re: Determination of Completeness, Boyer Mine, PRO/043/008,
Folder No. 2 and 6, Summit County, Utah

The Division has reviewed the information received December 23, 1986 in response to the Determination of Completeness Review of December 15, 1986. This information has been found to be adequate to determine the Mining and Reclamation Plan (MRP) apparently complete. The Division will now begin preparation of a Draft Technical Analysis in anticipation of issuance of a new 5-year permit for the Boyer Mine.

At this time the applicant should publish a Notice of Complete Permit Application as required by UMC 786.11(a). A copy of the publication notice should be sent to the Division as soon as it is available. The Division will notify all other interested agencies prior to making a final decision to approve or disapprove the application.

Please feel free to contact me or Susan Linner if you have questions.

Sincerely,

L. P. Braxton
