Mr. Richard Blonquist
Summit Coal Company
P. O. Box 752
Coalville, Utah 84017

Dear Mr. Blonquist:

Re: Permit Review, Boyer Mine, PRO/043/008, Folder No. 2, Summit
County, Utah

The Division has determined that additional information as detailed in the attached review is necessary before a Technical Analysis of the Mining and Reclamation Plan for the proposed Boyer Mine can be finalized.

Please respond to these concerns at your earliest convenience in order to not detain the ultimate issuance of a permit.

Sincerely,

A handwritten signature in cursive script that reads "L. P. Braxton".

Response to the Technical Deficiency Document

Summit Coal Company
Boyer Mine
PRO/043/008
Summit County, Utah

April 10, 1987

UMC 782.13 Identification of Interests - DL

- (a)(2) The applicant must provide information stating who owns the mineral rights to the portion of the proposed permit area which is in the SE 1/4, NE 1/4, Sec. 36, T 3 N, R 6 E, SLBM.

UMC 782.15 Right of Entry and Operation Information - DL

- (a) The applicant must provide legal documentation proving that the signed coal leases, provided in Appendix 2-3 of the MRP, are adequate to convey the legal right to enter and mine the subject coal reserves.

UMC 783.24 Maps: General Requirements - DL

- (b) In Section 4.3.2.1 of the MRP the applicant states that, "coal ownership and mines in the permit area and contiguous areas are shown in Plate 2-1." This statement is untrue, only surface ownership is shown in Plate 2-1. The applicant must provide a separate map to fulfill the requirements of UMC 783.24(b).
- (d) The applicant does not identify the location of all buildings within 1000 feet of the permit area and their uses. In addition, the permit application/regulations cross reference refers readers to Section 3.2 of the MRP which has nothing to do with UMC 783.24(d). The applicant must provide all the required information in a clear manner.
