Dear Mr. Blonquist:

Re: Meeting Concerning Monitoring Well at the Boyer Mine,
January 16, 1987, Summit Coal Company, Boyer Mine,
PRO/043/008, Summit County, Utah

I am writing concerning the agreements made during the above referenced meeting held at the Boyer Mine on January 16, 1987. It was agreed upon that funding available from the S.O.A.P project would be available for the cost of PVC screening for the well and pump test of the well following completion.

Division personnel will conduct the supervision of the well drilling and the Division's contracted consultant (Earthfax Engineering, Inc.) will conduct the pump test and data analysis.

Thank you for your cooperation on this matter.

Sincerely,

Rick Summers
Reclamation Hydrologist
