Re: Permit Modification Requirements
 Summit Coal Company
 Boyer Mine
 ACT/043/008; #2 & #3
 Summit County, Utah

Dear Mr. Braxton:

Enclosed are 8 copies of proposed modifications to the Boyer Mine Plan as requested in your letter of June 13, 1988.

All pages and plates are numbered and should replace corresponding numbers in the present plan. A checklist is also enclosed to assist in correlating response locations with requested modifications.

All items in your letter are addressed in the revised sheets and plates, except No. 2. It is the company's intent to remove the 2 inch bypass line from ditch UD-1 prior to July 30, 1988; therefore, no plans or discussion of the line is needed in the text.

If you have any questions, or need any further information, please contact me or Jack Blonquist.

Respectfully,

Dan W. Guy
