Re: Summit No. 1 (Blycock Mine PRO-043-001)

Dear Mr. Braxton:

This is a follow-up to our meeting of last month regarding the above-reference mine. Please be advised that we are in contact and working out the necessary arrangement and agreements with the Boyers, the surface owners. We found them to be very cooperative and expect within the next week or so to have an executed agreement which will require significantly less reclamation than had been previously thought necessary. As with the State, they appear to have some claim still pending against Summit Minerals and Mr. Higgins which will be addressed separately between the Boyers and them.

Please feel free to call if there is question about the above referenced matters. We appreciate your continued cooperation and patience as we continue to take the appropriate steps to satisfy the concerns of the Boyers and the State.

Very truly yours,

Lynn B. Larsen

cc: Keith H. Bates
Patrick J. Garver, Esq., Counsel for Boyers

Note: Called Garver 24-88: Verbal agreement has been reached in principle vis à vis assignment of buildings to Boyers in sound condition for post mining land use. A written bill of sale will be transmitted at that time. This to be documented in an agreement between Boyers & Bates. Garver has not discussed right of entry, or reclamation, or length of time that Boyers would consider for reclamation only ... LBL 2/4
